CUSTOMER SERVICE INSPECTIONS (CSI)

Under TCEQ rules, Pattison WSC must ensure a safe drinking water supply and that no part of the water distribution system, which includes both sides of the meter, presents any type of hazard due to cross-connections or hazardous materials in the home.

We have received notice from the TCEQ that Customer Service Inspections (CSI) of supply connections must comply with state law and our fee.

You have signed a Customer Service Agreement with Pattison WSC for the supply of water to your property. This agreement requires a Customer Service Inspection (CSI) to certify that each and every part of the installation and materials used are compliant and safe. The CSI fee/rate currently \$150.00 is a one-time event performed by a licensed inspector, in accordance with TCEQ requirements. Any necessary repair work is the responsibility of the customer. Re-inspection after repair work is completed is offered at a reduced rate from the original inspection. Customer Service Inspections are performed to prevent crossconnections and to check for illegal lead materials in plumbing fixtures.

Outside the home:

- Service lines are checked for possible cross-connections between district water and a private well. A backflow prevention device must be installed if there is a connection between the two.
- Hose bibs are checked for vacuum breakers to prevent siphoning into the public water supply, should it lose pressure.

A backflow test currently has a separate fee of \$175.00; all commercial operations that sell products to the public require an annual inspection of backflow prevention devices.

Pattison WSC has contracted with a third-party contractor, CroBul Services, LLC, to manage this program on our behalf. Pattison WSC will charge the customer the inspection fee.

This agreement is provided as a service to our customers for their convenience. New applications require a CSI to be included in the impact fee collected at the time of application.

Water may be supplied, metered and billed during construction, but the CSI must be performed prior to connecting the supply to the completed facility. Fees will be billed to the CSI on the monthly bill after construction is complete.

A customer may obtain their own CSI and pay a licensed inspector of their choice directly. TCEQ Certificates of Inspection (CSI) must be provided to Pattison WSC. within 60 days of notification.

To schedule an inspection, call CroBul Services, LLC directly at (832) 523-5558.
